

### **Last week of March**

Students will be entering their course selections into PowerSchool. The courses available in September are based on the requests put in the system in March so it is very important that students enter their selections accurately to best support our final schedule. If there are not enough requests for some courses, it is important that alternate selections be chosen by students as well. We encourage any students or families with any questions to reach out to ESDH by calling 902-889-4025 extension 0 so that their inquiry can be redirected to the appropriate staff person at ESDH or they may bring a question to their school counselor prior to the end of March.

Once the selections are entered in PowerSchool, the selection portal will close. If a student would like to make a selection change after the portal is closed, they are asked to email Natalie Stevens, Registrar, directly at [nstevens@gnspe.ca](mailto:nstevens@gnspe.ca).

### **Thursday, April 18th (AM)**

The future 10s (grade 9s) will come to ESDH for an in-person tour of the building and a chance to meet the staff as well as the opportunity to ask questions. Our ESDH students do not have classes that day, so the future 10s will really be able to have a chance to explore the school and meet some future Schoons from both feeder schools.
